What's new in 2024-2025?

- Spanish paper testers can now be registered during the Pre-ID window.
 - New language field
- Spanish Practice Test will be available on the Maryland Help and Support Page
 - Practice tests available 10/4

Individual Student Results in Data Interaction

- Students receive results in Data Interaction 9 business days after completed test is submitted.
- There are several scenarios when a student would not receive a score 9 days after testing.
 1. The student does not submit all sessions of the test.
 2. The student's demographic information (name, SASID, DOB, etc.) does not match what is provided to Cognia.
 3. Paper based tester's answers are not transcribed into the testing portal.
 4. The student starts and attempts the same test multiple times (duplicate records).

Individual Student Results in Data Interaction

- When will you receive student results?
 - If the student does not submit all sessions of the test, you will receive student results 12 business days after the final day of the administration (2/7/25).
 - If the student's demographic information (name, SASID, DOB, etc.) does not match what is provided to Cognia, you will receive results during preliminary reporting (2/11-18).
 - If paper based tester's answers are not transcribed into the testing portal, you will not receive student results until those answers are transcribed by MSDE or Cognia. Depending on timing this could be either 2/7/25 or 3/12/25.
 - If the student starts and attempts the same test multiple times (duplicate records), you will receive students results during final reporting (3/12/35).

Transcribing Paper Based Tests

- All paper based test responses must be entered directly into the kiosk to ensure timely processing of student assessments.
 - Standard paper and large print
 - Student Spanish and large print Spanish
 - Braille
- All paper based tests will come with a "Transcribed" label.
 - These labels should be affixed to the front of the answer document after transcription.
- Paper tests that are not transcribed into the kiosk risk not being scored and reported in the rolling reporting window.
- Send materials back as soon as possible to ensure timely scoring and reporting of non-transcribed tests.

Homeschool Test Takers

- All homeschool testers need to be enrolled in LEA 55.
 - Excluded from state level aggregations.
 - ISRs will be sent to the district in which they tested.
- LACs will need to contact the Maryland Help Desk to get a School Testing Coordinator (STC) account.
 - STC or agent can enroll student in district.
 - Agent will need SASID and full name to enroll students.
- LAC responsible for creating additional accounts for TA/STC administering test.

What happens if a student loses network connection in the middle of a test?

What if a student finishes a test but has no network connection?

Please raise your hand and notify your proctor.
A connection to the network could not be established. Your test has been saved offline.

Proctor, this student's test responses have been stored locally on this device. When network connection is restored, you must re-launch the Kiosk or mobile app from this device in order to send the stored responses to the servers; or you can also try to send responses by clicking "Send Responses" button.

Send Responses

Do not move the student to a different device.

If you have any questions, please contact technical support immediately.

I have read this statement and understand that I must follow these directions or the student's responses may not be sent to the server and scored.

Loss of Network Connectivity Procedure Summary

- If a student loses network connectivity in the middle of a test:
 - Keep testing on that device
 - Test content and responses are stored securely on the test device
 - Responses will be sent when network is restored
- If student finishes and is ready to turn in test prior to network being restored:
 - Allow student to turn in test
 - Acknowledge the Offline Warning Message
 - Record the exact device the student is testing on
 - Ensure no network management tools or system maintenance will alter that devices files or configuration
 - When network connectivity is restored, return to that exact device and relaunch the kiosk
- If you are unsure of the status of the student responses, call the help desk

Kiosk: Tech Support Notes

- Do NOT move students to a new device when experiencing technical issues if the student has begun testing.
 - Only move once you are sure all responses synced to servers. Not sure? Call Technical Support.
 - (866) 207-8804
 - LSMISA.GovHelpDesk@cognia.org

Kiosk: Transcribing Responses

- As of the Winter 2023-24 MCAP Government and LS MISA administration, a paper test-taker's responses **must be transcribed into an online test form in the MCAP Government and LS MISA kiosk during the test window.**
 - Braille testers
 - Large Print testers
 - Paper based testers (including Spanish PBT)
- Transcribing original responses into the kiosk will ensure timely reporting of student responses and incorporation of scores into final course grades.

Transcribing Responses User Workflow

- Step 1: Ensure student has finished testing
- Step 2: Verify/assign accommodations
- Step 3: Create classes
- Step 4: Schedule test sessions
- Step 5: Share student logins with the transcriber
- Step 6: Transcribe responses into the kiosk

Materials Management

Additional Materials

The screenshot displays the 'Materials Management' web application interface. At the top left is the Maryland State Department of Education logo with the tagline 'EQUITY AND EXCELLENCE'. A navigation menu includes links for Home, Site Readiness, Students, Classes, Test Sessions, and Pre-ID Management. The main heading is 'Shipment History'. Below this, there is a dropdown menu for 'Grand Canyon District' and another for 'Administration: Choose Admin'. A blue button labeled 'Order Additional Materials' is highlighted with a red box and a red arrow pointing to it. To the right of this button is a green button labeled 'UPS Pick Up Request'. Below these elements is a table with shipment history data.
